Resolutions of Respect.

Paris, Ky., April 9, 1910—Whereas, it has pleased the Grand Architect of the Universe to remove from our midst our true and worthy brother, Arthur H. Sanford, who was born July 27th, 1873, in Wyandotte county, Kansas, and died March 21st, 1910, near Berea, Kentucky, therefore, be it resolved, That in the death of Brother Sanford his mother has lost a devoted and obedient son, his brothers and sisters a kind and loving brother, Paris Lodge one of its most worthy and consistent members, while the city of Paris and the Commonwealth of Kentucky has suffered the loss of an upright, conscientious and Christian citizen. Words cannot pay fitting tribute to his life nor eloquence express the high esteem in which his memory is held.

Further, That we extend to the mother, brothers and sisters our heartfelt sympathy, and point them to Him who doeth all things well.

Further, that a page of our records be set apart to his memory and a copy of these resolutions be sent the family and a copy to the Bourbon News for publication.

He was initiated October 19th, 1896, passed December 7th, 1906 was raised to the sublime degree of a Master Mason on January 18th, 1907.

Transfer for "Robneel" Entered.

In the county court Friday a transfer of the "Robneel" building, corner Main and Eighth streets was entered as of record. The Robneel was erected last year by R. J. Neely. T. E. Moore, Jr., guardian of his three infant children, William Estill Moore, Rogers Moore and Miss Marion Moore, was the purchaser. The price paid was \$25,000 cash.

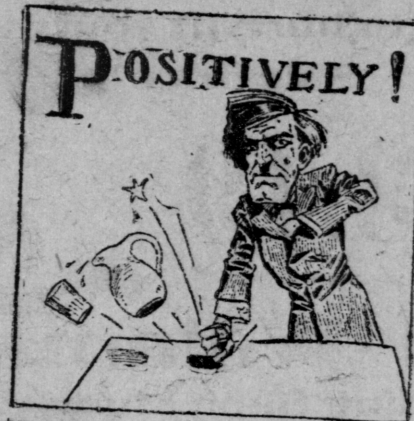

A New Barber Shop

Dave Miller, who for many years has been in the employ of John Ayres, is now with Russ Corbin, opposite Hotel Fordham, one of the most complete up-to-date barber shops in Paris. There's a trio of artists—Russ Corbin, Lucien Johnson and Dave Miller—and if the man whose face or hair needs attention can't get satisfaction there, he will indeed be very hard to please.

Maysville Girl in Tournament.

Miss Maraget Fitzgerald, of Maysville, Ky., it was announced by the Athletic Association Friday, has been chosen to compete for the Lincoln Challenge Cup at the all-round tournament to be held this month at Wellesley College. Miss Fitzgerald will be on the junior team of ten.

There will be thirteen events in the competition and they will be judged according to the "form" with which they are performed. For the first time at Wellesley there will be a baseball match and the teams will shortly be chosen. Offers from Harvard players to coach are being considered.

With all the emphasis at our command we state positively that we are giving the greatest values in Men's Clothing you ever had offered you. We can and want to prove it to you in person. See our Suits and Men's Furnishings and the proof will be ample. Note the prices and you will marvel at our moderation, and see the great opportunity they afford you.

One Hundred Spring Models In Magnificent Dresses On Display

Spring is pronouncedly dress time and because the dress is Queen this season, the models are more regal than ever in fabric and design. The Peasant motif which is adapted from the native costume of Southeastern Europe gives free vent to many unique and handsome effects. Designers have been keen to take advantage of this and the result is a showing of extraordinary beauty and diversity.

These dew Spring models which we are showing are made of plain and two-toned taffetas, French challes, satin foulards, pin stripes, crepe de chine, pongee and soft satins. The colorings are those of the flowers in Springtime and there's not a person who can resist their bewitching beauty.

Our 1910 display excels any previous showing in both the number of charming models and the wide variety of fabrics and styles. Here you will find everything from the simple frock for street wear to the elaborate evening gown, together with a large showing of semi-dress costumes for afternoon wear.

As usual we have upheld our reputation for having the "different." The garments in this Spring dress display are not the ordinary "stamped out" designs. We've searched the garment centers for dresses possessing individuality and the woman who buys her dress here, whether simple or elaborate, is assured of distinctiveness. Costs on all the new garments are modest indeed. Come and view these handsome garments tomorrow.

Prices Range by Easy Stages from \$22.50 to \$100.

Thinks it too Early to Announce.

While in New York Friday night former United States Senator James B. McCreary, of Kentucky, made the following statement in regard to the report that he would be a candidate for the Democratic nomination of Governor of Kentucky:

"Many Democrats have in person and by letters said to me I should be the Democratic candidate for Governor, and if nominated I would have the unanimous support of the Democratic party. I am grateful for this evidence of confidence. I did not expect to be a candidate again for office. But the solicitation of friends and kind editorials in various newspapers induced me to say I will take the subject of my candidacy under consideration. It is too soon for an announcement. I shall return to Richmond in a few days."

Unprecedented Record in Danville.

The Police Court of Danville established during March an unprecedented record for the amount of fines assessed in one month. The total of the fines assessed, including the number of days given in the workhouse at \$1 per day, was \$16,879.885. There were tried 205 liquor cases, for which the offenders were assessed \$13,060.50 and \$881.90 costs, and 2,655 days in the workhouse were given in addition to the fines. The city workhouse is taxed to the limit with occupants.

Deficit in the State Treasury.

The balance in the State Treasury April 1 shows that there is not enough money on hand with which to pay the school teachers, the balance being \$310,018.70 and the State owing the teachers \$418,000. As soon as enough money comes into the Treasury the teachers will be paid, as they have not received their money for several months. It is estimated that the deficit at the end of the fiscal year, June 30, will amount to over \$1,000,000.

Halley's Comet.

Halley's Comet, which has for many months been awaited with expectancy, is now distinctly visible just above the horizon at an early hour each morning. The comet passed the sun on March 27 and since then has approached near enough to the earth to be seen for a short time before the sun rises each morning. The comet will become more and more distinctly visible as time goes on until on May 18, the earth passes through its tail, when it crosses our orbit. In the course of a week or two the comet will be seen earlier in the morning and will be visible for a longer time each day.

WASHINGTON NEWS LETTER.

Washington, April 11.—Of course the White House kitchen is immune from the prying eyes of the Lodge Committee which is seeking causes for the higher level of living costs but it has been suggested that the domestic economies of the president's establishment today would serve to throw light on the economic changes which have taken place in recent years which the consumer feels so keenly now. Nowadays the mistress of the White House is not apprised of what a dinner menu will be until the dinner is served. A chef and a housekeeper attend to all that. Simplicity is the rule now as in President Roosevelt's administration, but it is comparative simplicity. The dinners never are elaborate. However, the marketing for the White House table is done in a vastly different way than in the days of Dolly Madison, who went personally to market each day and selected what she wanted. The vegetables and meat are delivered and second deliveries are made in case of dissatisfaction. The market men make their charges cover the delivery expense of course and the contingency of replacing rejected steaks or berries and of hurry up calls when President Taft unexpectedly invites guests. The discontinuance of Dolly Madison's system of buying direct, and taking home her purchases for a big seat of a carryall accounts for a big share of the increased costs of living, and the same changes have taken place in the household management, not only of Washington homes but homes throughout the country since the telephone has led housewives to order their supplies without inspection. The quiz of retail grocers, packers and others have served to reveal in part the enormous tax levies in the name of "modern conveniences," which has caused the frugal buying of Dolly Madison's day to be a neglected if not forgotten art, now under necessity being revived. In Chicago, Pittsburg and several other cities women again are qualifying to choose foods as food, including the different kinds and cuts of meats. Some have visited retail markets and learned where the "tenderloin" and the "round" are cut from. The telephone method of marketing however continues on the increase—an expensive increase.

Alexander Hamilton organized the Treasury Department of the United States and in many respects it is exactly as he organized it. Perhaps there is no other business machine so great and at the same time so behind the times in all this country. It is colossal magnificent in the way that it continually pounds out its destiny. It is immobile, hard to change and far from being a progressive or insurgent institution. No one can say it is not efficient, but the efficiency comes with great cost and is not of as high an order as should be, considering the Treasury Department as the one special business organization in the whole administration. Only a few years ago letter copies were made by hand in large books; only a few years ago the telephone was practically unknown in the Treasury Department; the electric button and time clock, modern filing systems and direct telegraph lines are only of comparatively recent origin. Work has been duplicated in many instances at increased cost, some economies have lately been affected by the late administration and Secretary MacVeagh is asking for an appropriation of \$25,000 to start further galvanizing to progressive life the throbbing, slowly moving, unprogressive machine known as the Treasury Department of the United States.

Some day when the Congress of the United States is not busy investigating the high cost of living, pruning "Uncle Joe" are conserving the Balfinger-Pinchot row it will order a statement prepared of the interest and liabilities of the United States Government. We own sundry battle-ships, some several hundred public buildings, some harbors, some river improvements, some fortifications, some peace fleets, some fish hatcheries, some miles of acres of land, some reservation forests, other reservations for the cure of tuberculosis, and a large number of experiment stations for the purpose of upbuilding the science of farming—dry, plain and irrigated. We also have a Panama Canal and some islands of the sea. Just what our definite liabilities are in regard to these things no one has ever taken the trouble, so far as known, to tabulate. Most people think we are solvent, and I guess we are. When that tabulation is made every citizen of the United States will think he is entitled to regard himself as a property holder of no small amount.

Railroad men are beginning to believe that the day is not far distant when the Government will own the railroads and operate through leases or franchises on a profit sharing basis. What would have caused a revolution a few years ago or even a few months ago is now accepted without very much excitement. One railroad man expressed a proposition the other day in this manner: "I believe that the railroads of the country would be much better off if the Government

owned them or leased them to private individuals or corporations and gave them a free hand, keeping a moderate amount of the profits for the Government's portion. Today the situation so far as law observance is getting more and more difficult. Railroads trying to observe the law will have additional difficulties thrown upon them by those railroads which do not accept the law or attempt in any way to cooperate with the Interstate Commerce Commission. Details of management are being inquired into and interfered with in a manner that is equally unsatisfactory for the Government and railroads. In my judgment the Government will own the railroads in a very few years or they will be operated along the lines I have suggested. When that is done the railroad question will be eliminated and only then the country will have such peace as they have not enjoyed since the 'bloody shirt' was eliminated from politics."

Official details of the Canadian coup by which New York's supremacy in transatlantic shipping again was curtailed, the Canadian Northern Railway's new Royal line of steamships having captured the Great Western Railway's great organization of agents throughout England, indicates that the maritime importance of the St. Lawrence river has taken a great leap forward. That river and the Great Lakes will soon be a portion of a through route from London to Vancouver by the Canadian Northern Railway's new ocean line, its control of a lake navigation company and its railroad line west from Port Arthur at the head of Lake Superior. The ocean greyhounds Royal Edward and Royal George of the Royal line will be the fastest plying between Great Britain and Canada, with a speed of 21 knots an hour and time of four days from land to land. They are now being refitted in Glasgow to surpass any liners in the Atlantic service. There is a world wide interest in the immediate use by the Royal line of the new municipal docks at Bristol, costing \$15,000,000 which again will restore Bristol to the rank of the great ports of the world. For centuries the shipping of the world lay in Bristol harbor; it was second only to London among the ports of England. The completion of the deal for the Canadian Northern by Vice President D. B. Hanna and Land Commissioner A. D. Davidson now in England has been hailed with delight because of the new advantage secured in the race with settlers from the United States for the lands in the fertile provinces of Alberta and Saskatchewan opened by Mackenzie and Mann in their railroad building. The Royal line will be an active competitor with New York lines not only for passenger business originating on the Great Western Railway in England but also for business from the middle west to Europe. Passengers will reach London two hours after landing in Bristol.

Fast Age.

Should J. Sutherland Werner, a prominent English railway expert, see his ideas practically realized there will be no denying that we are living in a fast age. He is authority for the assertion that a speed of one hundred and fifty miles an hour by railway trains is technically possible today and will be commercially feasible within the next ten years, so long as the railway serves greater centers of population yielding a large amount of traffic. "The motive power, of course, would have to be electricity," said Mr. Werner. "Naturally, too, the high horse power required for the attainment of such speed would necessitate motors of enormous size and weight. In order to carry such tremendous weight safely it would probably be necessary to use three, if not four rails."

"The great problem, however, would be how to deal with the resistance of the air. There are three methods by which this could be met. One of these would be to construct the train cigar shape, with the sides of the carriages oiled or varnished so as to make them as smooth as possible. "Another way would be to reduce the friction of the track by fitting wings, or lifting planes, all around the train, the object being to utilize the resistance of the atmosphere to lift the weight from the track and thereby reduce the track resistance. "The third method would be not to run the train through the air at all. This could only be done by running it in a tube from which the air has been exhausted in advance of the speeding train by powerful pumps."

Her Boy's Book.

A certain woman is going to keep a diary of the clever things said and done by her boy. She expects to buy a large book and jot down all the interesting events in the child's life, keep it a secret, and give it to him when he is of age. The mother is of literary turn of mind, and this book, if ever completed, will be valuable to the owner, as many pleasant little childhood incidents occur that one forgets.

The ideal carriage horse is the American trotting bred horse, with
size, speed, courage, and the true trotting gait, with plenty of knee and
hock action. In addition he must have a clean cut head and neck, style
and finish, plenty of substance without coarseness.

Recognizing the demand for this class of horses, I selected Taylor Sim-
mons 23489, a young horse which fills all the requirements of the typical
carriage horse. If the theory that "like begets like" be true, he will pro-
duce horses of this type when mated with good mares. Through his veins
flow the blood of the greatest trotting families. He traces twice to George
Wilkes and five times to Mambrino Chief II. This is backed by the stout
thoroughbred blood of Boston.

Lien retained on colts until season money is paid.

"IN THE HOUR OF DEATH."

A Note on the Authorship of a Well
Known Poem.

The question is often asked in news-
papers and magazines, "Who wrote
the poem beginning 'In the hour of
death, after this life's whim?'"

The answer is given that nothing is
known of the author. It is true this
poem was published with only the ini-
tials of the writer in the University
Magazine in 1879. But I hold the
manuscript of the poem, and I have
also Blackmore's letter that accompa-
nied it. Blackmore has been so long
dead I do not feel that there can be
any harm in giving his letter to the
public. I subjoin an exact copy of it;
also of his poem.

AGNES E. COOK.

"Tedd., Jan. 5, 1879.

"My Dear Sir—Having lately been
at the funeral of a most dear relation,
I was there again (in a dream) last
night and heard mourners sing the
lines inclosed, which impressed me so
that I was able to write them without
change of a word this morning. I
never heard or read them before to
my knowledge. They do not look so
well on paper as they sounded. But
if you like to print them here they are,
only please do not print my name be-
yond initials or send me money for
them. With all good wishes to Mrs.
Cook and yourself, very truly yours,

Dominus Illuminatio mea.

I.
In the hour of death, after this life's
whim,
When the heart beats low, and the eyes
grow dim,
And pain has exhausted every limb,
The lover of the Lord shall trust in him.

II.
When the will has forgotten the lifelong
aim,
And the mind can only disgrace its fame,
And a man is uncertain of his own name,
The power of the Lord shall fill this
frame.

III.
When the last sigh is heaved and the last
tear shed,
And the coffin is waiting beside the bed,
And the widow and child forsake the
dead,
The angel of the Lord shall lift this head.

IV.
For even the purest delight may pall;
The power must fail, and the pride must
fall,
And the love of the dearest friends grow
small,
But the glory of the Lord is all in all.

Wonder of Mechanism.

A German shoemaker spent 15 years
of his leisure moments in constructing
a clock of the grandfather shape, nearly
six feet high, made entirely of straw.
The wheels, pointers, case and
every detail are exclusively of straw.
The most remarkable fact is that it is
reported to keep perfect time, though
the durability of this strange piece of
mechanism is a matter of doubt.

Alarming Symptoms.

"My wife has taken up the use of
Indian clubs; what do you think of
that, doctor?" "Well, really, if my
wife began the use of any kinds of
clubs I should consider them alarm-
ing symptoms!"

Improvements on Local Park Being Rushed.

The work on the improvements at the local base ball park is being pushed with all haste and with favorable weather will reach a completion by the last of the week.

The left field fence has been set back a distance of about two hundred feet and an addition of forty-two feet added to the grand stand, which will increase the seating capacity to about three hundred including box seats with a capacity of about eighty.

New bleachers are to be erected a distance of twenty feet from the grand stand and will extend sixty feet. They will be eight seats high and for the convenience of the patrons foot rests will be built.

By extending the fence, ample room will be provided for persons in vehicles who attend the games. Many other conveniences will be provided for the patrons.

Mr. Ed Turner, with a force of men is superintending the grading and hopes to have the grounds in fine shape before the dates for exhibition games and work on the diamond and fields will be pushed with all haste so as not to interfere with the preliminary work of the Paris players.

Frank Eddington and Wesley Holder, two young players from Indiana were the first of the Paris players to report to President Bacon. The men came in Friday and since then have been going through light practice. Both men were recommended by Thos. Dugger, who was with Paris last year and who this year will play with the Evansville club. He is very hopeful of the belief that both of them will make good. Eddington is only eighteen years old but is stockily built and looks every inch of a ball player. He has been playing amateur ball at Lyons, Indiana, where he lives. Holder is from the same town. Eddington will try for a berth on the pitching staff of the Bourbonites, while Holder will try for the honors behind the bat.

Samuel S. Wills arrived yesterday afternoon from his home in Mt. Sterling and reported to Manager McKernan. Wills has never played professional ball and will try out with the Bourbonites for the position of pitcher. He is a young man of strong physique, tipping the beam at 200 pounds and measuring 6 feet 1 inch in height.

Jimmie Poole, the big fellow from Macio, Ky., was the first of the old players to arrive. He came in last night and is looking the picture of health. Poole pitched phenomenal ball last year and with the proper conditioning it is predicted he will do the same thing again this season.

All the players have been ordered to report for duty today but there are likely to be several who will not get here until later in the week. The men will be domiciled at the Fordham Hotel.

Glaude Maxwell, of Indianapolis

arrived last night and reported to the Paris management. Maxwell will try out for a place on the pitching staff of the Bourbonites. He is late of the Central Association and comes highly recommended as a twirler.

Manager Ed McKernan arrived yesterday to take charge of the Bourbonites and spent the afternoon with Eddington and Holder at the park looking over the two youngsters. McKernan states that he is in excellent condition and is anxiously awaiting the arrival of the remainder of the twenty-four men under contract to begin practice.

MATRIMONIAL.

—A marriage license was issued Saturday to Miss Myrtle Clifford and Mr. Calvin Craig.

—Miss Lucy Day, of this city, and Mr. Clarence Plummer, of Hazen, Ark., were united in marriage yesterday afternoon in Cincinnati. The bride is the daughter of Mr. J. C. Day, who resides near Paris and the groom, who is a son of Mr. Chas. Plummer, formerly resided in this county. The couple will return to this city tonight and go to the residence of Albert Plummer, a brother of the groom, where a reception was tendered them. Mr. and Mrs. Plummer will make their home in Hazen, Ark., where he holds a position.

—Thursday evening the marriage of Miss Julia Spencer, of Lexington to Mr. William Ardery, of Paris, will be celebrated at 7 o'clock in Central Christian church in the former city. D. I. J. Spencer will be the officiating minister and the wedding music is to be played by Mrs. John C. Taylor at the organ, Miss Virginia Parker at the piano and Professor Bruce Reynolds with the Violin, also Miss Sarah Van Meter will sing two numbers. Miss Eva Spencer will be maid of honor, Messrs. John Davis, Fay Ardery and George Adair, of Paris, Richard Williams, of Somerset, Shelby Shanklin, of Lexington, Collis Lee, of Covington.

After the wedding the bridal couple will leave for the trip and returning make their home in Paris going to housekeeping.

Wolcast Nelson Fight Pictures.

Battling Nelson whom the world acknowledges the greatest lightweight fighter of modern times was given the worst walloping of his career on Washington's birthday at Richmond, California, by Ad. Wolcast. The pictures of this famous fight show clearly the fact that Nelson was the aggressor throughout the entire contest and they also show that Wolcast was able to hit the "Durable Dane" when he pleased and that, when in the fortieth round referee Eddie Smith raised his hand as a silent token of victory. He was dancing around the ring as chipper as a bantam rooster and from all appearances would have been able to have gone another forty rounds. These pictures will be exhibited at the Paris Grand for three performances tomorrow. Matinee at 2:30, night at 7:45 and 9:15.

Opening of Vaudeville Season.

On next Monday night, April 18th, the regular summer season of vaudeville will be inaugurated at the Paris Grand. Manager R. S. Porter is sparing no pains or expense to give the people of Paris the best there is in the vaudeville line. Contrary to the usual custom the opening will be no better than any other bill during the season. The Gus Sun Booking Agency of Springfield, Ohio, has promised a line of attractions second to no town of the size of Paris in the country. Realizing the importance of a good musical conductor to make the acts go their best, Mr. Porter has secured the services of Mr. A. H. Beveredge of Buffalo, N. Y., one of the best musical directors and composers in the theatrical business. Mr. Beveredge will arrive in Paris on next Saturday night and the patrons of the Grand may rest assured that the musical end of the performances will be above the average of the ordinary vaudeville house.

Finding that the trend of sentiment was rather opposed to the illustrated song than in favor of it, Mr. Porter has decided to omit that feature, and in place of the song will give two different sets of motion pictures each night. These will comprise some of the very best films and all will be first runs, that is positively new and never used before.

On Monday night the Paris Base Ball Club will be the guests of the Grand in a box party and the other boxes will be filled by a party of young ladies. The Elks band in their new uniforms, will give a concert on the opening night in front of the house from 7 o'clock to 7:45.

Altogether it will be a gala night, and as our people are hungry for some place to pass away a pleasant night during the summer season there is no doubt but what there will be a more than liberal patronage.

Turnpike Bids Rejected.

The adjourned meeting of the Bour-
bon Fiscal Court Saturday which was
in session during the entire day
resulted in a rejection of the bids for
the repairs of the turnpikes of the
county, and an order was passed re-
ferring the matter to Turnpike Super-
visor Claude F. Redmon. The court
thought the bids were in most instan-
ces higher than those of the previous
year for the same class of work.

At the instance of County Treasurer
S. E. Bedford the matter of liquidat-
ing the debt of the county that is out-
standing as an overcheck out of the
1910 levy before any appropriation is
made for turnpike repairs, was taken
under consideration.

If this policy is adhered to the
amount of money available for the
county roads will only be about one
half what was contemplated Thursday
when the court raised the levy from
13 to 25 cents on the \$100 worth of
taxable property listed for State tax-
ation.

A raise of ten per cent in the county
assessment, information of which
came from Frankfort, will add a total
of \$8,000 to the turnpike fund. The
total county assessment for purpose
of State taxation will now aggregate
nearly \$17,000, and for all purposes
will give the county a total of more
than \$100,000 revenue for the year
1910.

Iron Cross of Prussia.
The Iron cross is the Prussian order of knighthood instituted March 10, 1813, by Frederick William III., and conferred for distinguished services in the war when carried on. The decoration is an iron cross with silver mounting. The grand cross is one of double size, presented exclusively for the gaining of a decisive battle or the capture or brave defense of a fortress.

Relic of the Past.

The modern housewife if she now sees an old clothes pounder in the collection is apt to ask: "What is that for?" It was used for pounding clothes in a barrel on washing day in the everlasting fight with dirt. It is far removed from the modern laundry or the washing machine of the present day.

If You Have Eczema.

If you have eczema would you like to get prompt relief and be permanently cured by a clean liquid preparation for external use? Mr. W. T. Brooks, the chemist, has this remedy in stock. He knows the ingredients and knows of its wonderful curative and healing properties. ZEMO has cured a great many chronic cases of eczema and other forms of skin disease. Mr. W. T. Brooks will give you a booklet on skin diseases and explain to you how you can be cured in your own home by this clean, simple remedy ZEMO is pleasant to use and can be used freely on infants. It cures by drawing all germ life and poisons to the surface of the skin and destroying them leaving the skin clean and healthy.

Bread in Politics.

From the days of Joseph down the only well populated country which had enough grain to satisfy its own consumers was Egypt, rich beyond the record of any other soil this side of Paradise. Ferrero, in his history of Rome, shows the transcendent political importance of corn in all times. Feed your people, king or demagogue, else they will overthrow you. For the masses from furthest antiquity to most recent days, there has never been any torch of dissatisfaction, rebellion and anarchy like a shortage of bread.

Swing of the Pendulum.

"Many works of the highest literary excellence went begging among the publishers!" said the reminiscence person. "Yes," answered the man who doesn't care for best sellers. "But the publishers appear to have learned their lesson. Nowadays they seem willing to put almost anything into print."

Saved in Time.

Reaching the Top.

In any calling of life, demands a vigorous body and a keen brain. Without health there is no success. But Electric Bitters is the greatest Health Builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from Kidney Trouble, writes W. M. Sherman, of Cushing, Me., 'three bottles of Electric Bitters made me feel like a new man.' 50c at Oberdorfers.

Bee's Recognition of Landmarks.

There can be little doubt that so intelligent an insect as a bee has a long memory and a keen eye for landmarks. This is testified to by the fact that almost all bees fly by day, whereas such creatures as moths—of no fixed home or occupation—fly in the darkness. A bee would be lost at midnight because it could not recognize its surroundings.

Best Stomach Remedy Free

It is an old saying that if the stomach is sound the whole body is safe, because so much depends upon the proper working of the stomach. Many persons find themselves with a disorder of the stomach which produces dyspepsia or a peculiar state of biliousness.

If you suffer from both stomach trouble and constipation you are on the way to a very serious disease. From just such conditions come appendicitis, rheumatism, skin diseases and similar disorders, because the waste matter that should have been expelled from the system through the bowels has found its way into the blood and vitiated it. What is needed at this point is not simply a violent cathartic tablet or salt, which usually does more harm than good, but a gentle laxative tonic like Dr. Caldwell's Syrup Pepsin, which people have been using for these ailments for nearly a quarter of a century. It cured J. C. Lanham, of Warrensburg, Mo., of stomach trouble of long standing, also William Voll, of 933 Ellison St., Louisville, who had the trouble for fifteen years.

However, if you have stomach trouble you want to know from personal experience what Dr. Caldwell's Syrup Pepsin will do for you. If so, send your name to the doctor and a free trial bottle will be sent you. You are urged to send for the free bottle, as the results from it will be the best recommendation of Dr. Caldwell's Syrup Pepsin. Then you will do as over two million people did last year—go to your drug store and buy a regular bottle at 50 cents or \$1, according to the size you prefer. We could mention hundreds and hundreds of families who are never without it. You can never tell when some member of the family will need a laxative, and then no time should be lost taking Dr. Caldwell's Syrup Pepsin.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell bldg., Monticello, Ill.

Olga Nethersole at Lexington Opera House.

Miss Olga Nethersole, the famous English emotional actress, comes to the Lexington Opera House Thursday, April 14th, for two performances, matinee and night. Miss Nethersole will present two of her greatest successes. At the matinee she will present that great, sensational play, "Sapho." At the evening performance she will present her latest and greatest success, "The Writing on the Wall."

Theatregoers will recall that "Sapho" created the greatest sensation in the history of theatricals. "The Writing on the Wall," Miss Nethersole claims, is the greatest play she has ever produced. It deals with an ethical question of vital importance to the entire population of this country.

Manager Scott takes great pride in announcing to the Blue Grass region the coming of this great actress. It is an event in the theatrical history of Lexington.

Orders for seats sent to Manager Scott, will receive prompt attention. The sale of seats opens Tuesday, April 12th.

Kills A Murderer.

A merciless murderer is appendicitis with many victims. But Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, curing Constipation, Headache, Biliousness, Chills. 25c at Oberdorfers.

Take no thoughts as to whom you shall marry. Marry whom you please, and you will discover that you have somebody else.—Smart Set.

Cutting Out Booze.

The American people during 1909 drank five million gallons less of whiskey than they did in 1908, according to the figures of the revenue department of the Federal Government. The public is beginning to realize in a small degree, says an exchange that "drinking" can have no place in the present day economics when living has become such a strenuous proposition to many folks. Then the making of "dry" territory has helped some, the argument of brewers and distillers to the contrary notwithstanding. They claim there will be as much drinking without saloons as with them but in the face of this argument the brewers and distillers are always willing to spend money in a fight to keep saloons in a community, giving the lie most emphatically to this flimsy argument.

STOCK, CROP AND FARM NOTES.

—The average condition of winter wheat on April 1 was 80.8 per cent against 82.2 at the same period last year.

—Jesse James Journal says: "Duckworth & Benton sold to Thomas Henton, of Lexington, a pair of six-year-old mules for \$450.

—The Flemingsburg Times-Democrat says the sheep of Fleming county are in bad shape from scab, many of them dying from the disease while others have lost part or all of their wool.

—On account of ill health, Mr. Will A. Gaines, of Scott county, resigned as Second Vice President of the American Saddle Horse Breeders Association, and Mr. Claude M. Thomas, of Paris, was elected in his place.

—Everything points for a demand for more sheep growing in the United States, for this country now consumes about 15,000,000 annually of mutton, and with higher prices of beef and pork this will rapidly increase.

—A slight frost Wednesday night of last week was reported by H. F. Hillenmeyer, the Lexington nurseryman, who stated that the frost was so very light that no damage whatever was done to fruit or vegetables.

—The Harrodsburg Herald says: "J. A. Veatch bought a nine months old jack from J. M. Tarkington for \$700. It is said to be one of the finest individuals ever raised in Boyle county. Since the purchase, Mr. Veatch has refused \$800 for the youngster."

—Feed nothing to newly hatched chicks for the first 24 to 48 hours. Nature has provided for their wants in the yolk of the egg before it emerges from the shell. Feeding too soon hinders the proper assimilation of this natural food and is liable to cause bowel trouble.

—The Maine Farmer says: "More farmers to the land is what is wanted rather than more land to the farmer. There are very few, if indeed there are any, farmers who begin to get the income from their land that it is capable of returning. More investment to the acre is needed. The intensive farming returns the largest profit."

—It is claimed by some that the American Tobacco Company has already purchased 200,000,000 pounds of Burley this season, and that it will not need the Burley holdings, but the Burley people who have kept close tabs on the market say that the purchase made by the American Tobacco Company will not aggregate more than 115,000,000 pounds and that they must have the pooled tobacco.

—The half yearly report of the International Cotton Federation states that the visible supply of cotton is a million bales less than in March, 1909. This fact, however, it is pointed out, need not cause alarm, because of the "short time" in operation and because the tendency in most countries is to spin finer counts, thus using less cotton, while at the end of last season there was a large surplus supply.

—RICHMOND COURT—The Register says: "Court Day brought a very large crowd to town, and a great deal of business was transacted. There were about 1,000 cattle on the market, selling from 4 to 6 cents. Auctioneer Prewitt reports horses as selling at prices ranging from \$40 to \$170, and mules from \$43 to \$87. Of late Court Days there has been a great demand for second hand buggies, and Mr. Prewitt reports a great trade Monday in this line. From time immemorial April Court Day has been the occasion of the annual Stallion Show, and there were on display a lot of handsome animals. Much interest was displayed in the show, and the spirited animals curvetted about to the admiring gaze of hundreds of our citizens, who are true Kentuckians when it comes to loving a horse."

It's The World's Best.

No one has ever made a slave, ointment or balm to compare with Bucken's Arnica Salve. Its the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Eczema, Salt Rheum, For Sore Eyes, Cold Sores, Chapped hands, or Sprains, it's supreme. Infallible for Piles. Only 25c at Oberdorfers.

Not Quite Clear.

"I gave a hint to Binks that in going into that enterprise he was skating on thin ice." "What did he do?" "Oh, he tumbled."

Forced To Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else fail and I gain 47 pounds in weight. Its surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, LaGrippe, Asthma—all Throat and Lung trouble. 50c and \$1.00. Trial bottle free at Oberdorfers.

C. KENYON CO., 23 UNION SQUARE, NEW YORK CITY

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. Sedge Again Appears.

The reappearance throughout the Blue Grass counties of Kentucky of Sedge, a plant belonging to the grass family without commercial value, and one that is a great detriment to agricultural interests, is causing much apprehension among farmers, especially those who remember how profusely it was scattered over a wide area in the sixties and with what stubbornness it resisted efforts to exterminate it.

It disappeared however, much to the relief of those who had large areas of bluegrass pasture and was thought to be extinct. It is again to be seen here and there its reappearance being first observed during the summer of 1909 in Clark county.

The plant is hardy and increases in size stooping out like wheat until the keel is as large as a sugar bowl with more than fifty stalks each with short rough blades. The tips of the stalks look like bearded wheat.

Mr. Frank Clay, who farms extensively on the Georgetown pike is now engaged in ploughing up a field of clover and timothy in order to prevent the spread of sedge which is scattered all over the field in liberal quantities and to eradicate it entirely from the premises. D. C. Lisie, another farmer of the same community, is fighting the progress of the plant which is getting a strong foothold in many fields and pastures between Paris and Centerville.

The more a man hugs himself the smaller he becomes.

IT ALL DEPENDS.

"I say, old chappie, how much should I tip the keeper?"
"Well, that depends on where you hit him."
